Permit #20

**You get what  
you pay for with  
email marketing.**

## **Do direct mail marketing with Papergraphics, and you get results.**

Admit it ...You've deleted at least one email solicitation this week sight unseen. Maybe blocked a sender, too. And you know some people are treating your messages the same way.

If you're not happy with the returns from your email marketing, remember...  
The post office always delivers. So do we.

Hey <<First Name>>,  
you just got **VD.**

Don't worry <<First Name>>.

Our **VD** is not a  
disease.  
It's the cure.

The VD we spread around is **Variable Data** - the cure for poor results you get with average, everyday static mailings.

VD printing - from basic like this, to full custom - is catchy, and really demands attention. If you don't already have it, VD can dramatically increase acceptance and response rates to <<Company Name>> postcards, letters and flyers, without dramatically increasing cost.

<<First Name>>, for the best results on paper, give us a shot. We can handle VD, and a whole lot more.

Andrew,  
we do **printing** that  
**stands**  
**out!**

Paper still works.  
And we know all the tricks  
to getting you noticed on it.

There a lot of ways to make your marketing and collateral materials stand out in the crowd of messages everyone now gets every day.

If you want better recognition - and results - invite us to show you what may work for the things you're trying to do.

# Business Cards?!!

We don't print no stinkin' business cards.

Of course  
we print  
business cards.

But if that's all you call for,  
you're selling us short.

If all you call us for is business cards, you're probably selling yourself short, too. In a world that is now being bombarded into indifference by electronic messages, it's *printed* pieces - brochures, mailers, sales sheets and more - that get the job done. Better than ever.

We're all about getting the job done. When you're ready to cut through the clutter, call us.
